TRICOPHEROUS, OR Medicated Compound, for preserving, fastening, softening and promoting the growth of the hair, cleansing the head, and curing diseases of the skin, and external cuts, bruises, &c. The common consent of all who have used Barry's Tricopherous, whether for the improvement and invigoration of the hair, or for cruptions, cuts, bruises, &c., places it at the head of all preparations intended for like purposes. This is no ill considered assertion. Figures and facts bear it out. The sales average a millions of bottles a year: the receipts, in cash, \$100,000. This year the business will exceed that amount. The number of orders which daily arrive at the depot and manufactory, 137 Broadway, New York, addressed to Professor Barry, enclosing cash, and requiring immediate attention, would scarcely be believed. The wholesale demand is from 2,000 to 3.000 bottles a day, probably exceeding that of all the other hair preparations conjoined. The popularity of the article everywhere, and the liberal terms to dealers, combine to increase its sales with great rapidity; and improvements in its compo-sition, made at considerable expense, adds to its repu-tation as well as its intrinsic value.
